

## **NASA's APPEL - Academy of Program/Project and Engineering Leadership**

**Access to NASA project management and systems engineering knowledge and training website added to the PMWL**

Resource provided by [Alok Kaushik](#)

9 November 2016 – Mumbai, India – Access to an important new resource has been added to the PM World Library (PMWL) related to Public Project and Program Management Resources. The resource is the National Aeronautics and Space Administration **NASA Academy of Program/Project & Engineering Leadership (APPEL)**.

The Academy of Program/Project & Engineering Leadership (APPEL) is NASA's internal resource for project management and systems engineering development and training. APPEL promotes learning through its four business lines: *curriculum, hands-on development, strategic communications, and training and support*. APPEL's training initiatives help enhance and refine critical job skills, provide hands-on learning experiences, and supplement formal educational programs.

The Academy also offers development and learning resources on its website, which serve as a platform for sharing information, highlighting initiatives, and promoting digital collaboration. In addition, the Academy creates opportunities for project management collaboration through research and exchange with universities, government agencies, professional associations, and industry partners.

To access this new resource, go to Public P/PM Resources section of the library at <http://pmworldlibrary.net/public-ppm-resources/>, click on "USA Agencies and Organization", then click on US National Government Organizations, then click on NASA. Scroll down to resource. Must be a registered and logged in library member to access.
